Screen Resolution and Screen Size Trends

The graphs on the left show current screen resolution and screen size. Districts planning to use tablets should consider having external "plug and play" keyboards for students needing to maximize viewing space on their devices.

Internet Browsers

Current Browser Usage

The graph on the left shows current Internet browser usage, as reported by schools across the nation.

Most current version of Internet Explorer, Safari, Chrome, and Firefox can access the Smarter Balanced administrative tools, student practice tests, training resources, and diagnostic utilities.

Secure Browsers

Aside from regular browsers, the actual student assessment must be accessed with Secure Browsers that are released by Smarter Balanced annually and can be easily downloaded onto each testing device individually, or via a central distribution utility.

Bandwidth

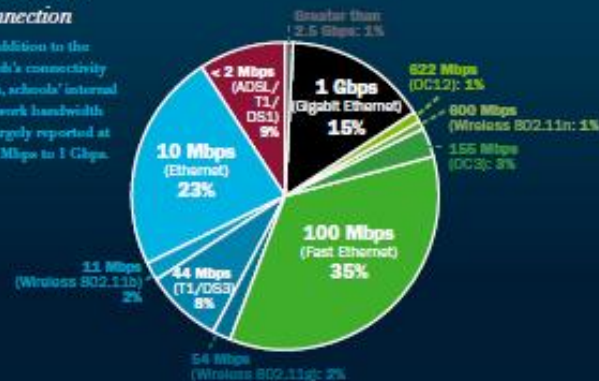

Bandwidth Note

Bandwidth requirements to deliver the assessment to students represented here are best-estimate calculations.

Sites with lower bandwidth (such as those still operating on T1 connections), can still deliver the assessment effectively, but will experience some latency in data transfer.

Site Internet Connection

*In addition to the graph's connectivity data, schools' internal network bandwidth is largely reported at 100 Mbps to 1 Gbps.

School Site Connectivity

When determining school site connectivity, always consider other daily programs and services that draw on the same finite bandwidth at a given campus.

9% OF SITES SURVEYED
NATIONALLY REPORTED
LESS THAN 2 Mbps

200 Students
= 2 Mbps

400 Students
= 4 Mbps

800 Students
= 8 Mbps

Network Bandwidth Checker

[Bandwidth Check Instructions](#) (PDF) and [Online Tool](#).

The bandwidth checker is compatible with Mozilla Firefox on computers with Windows, OS X, or Linux operating systems; Safari on tablets using the iOS operating system; and Chrome on tablets using the Android operating system. The bandwidth checker cannot be accessed using Internet Explorer.

Regional Superintendent Meetings

- We still want to ensure that we are meeting your unique and specific needs in each region.
 - If you as a region have a specific topic that you would like someone from the SDE to do a presentation on, we would be happy to attend one of your monthly meetings either in person or by phone.
 - To schedule this, you can either reach out directly to the SDE employee or contact any one of the Deputy Superintendents.
